

ADAPTABILITY

THE 5 BEST REASONS TO BE RIGID OR FLEXIBLE

BY MIKE LERARIO

RIGID

FLEXIBLE

PRINCIPLES

What you hold as fundamental truths, not subject to question.

UNCERTAINTY

When lacking facts, assumptions and hypothesis drive you but they must be tested and adjusted.

VALUES

Your standards of behavior; your judgment of what is important in life.

OPPORTUNITY

Doors that open to new possibility can close just as fast.

SAFETY

Never falter from the requirement to prevent harm, injury or loss of life.

DIVERSITY

We expand with diversity—especially when it is diversity of ideas, thoughts and experiences

PURPOSE

Your “Why.” This is where you are your best.

TECHNOLOGY

“Technological change is not additive; it is ecological. A new technology does not merely add something; it changes everything”— Neil Postman

VISION

Long term; what you see as the best possible future.

GOALS

Near term and often shaped by changing conditions, we must learn and grow from both failure and success
